PROFESSIONAL SUMMARY

Computer Science Engineer (AI & ML) with hands-on experience in **Full-Stack Web Development, Node.js, Express.js, React.js, REST APIs**, and AI-powered applications. Built projects involving **JWT Authentication**, secure backend development, **MongoDB**, and **LLM API integration**. Seeking a **Software Developer** opportunity to build scalable products and grow as a full-stack developer.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python

Frontend: HTML5, CSS3, React.js, Responsive Web Design

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Developer Tools: Git, GitHub, VS Code, NPM, Postman, Chrome DevTools

AI & Modern Development: LLM Integration, Prompt Engineering, OpenRouter API, AI Workflow Design

Authentication & Security: JWT Authentication, bcrypt, Protected Routes

PROJECTS

Smart Expense Tracker – Full-Stack Finance Dashboard

Tech: React.js, Node.js, Express.js, MongoDB, JWT Authentication

- Built a full-stack personal finance dashboard using **React.js, Node.js, Express.js, and MongoDB**.
- Developed modules for **expense tracking, budgeting, savings management, and investment monitoring**.
- Created responsive dashboard components using **reusable React architecture** and modern UI design principles.
- Implemented **JWT-based authentication, protected routes, and MongoDB-backed user management** for secure access control.
- Designed analytics-oriented workflows for **financial insights, spending visualization, and user-specific reporting**.

Customer Support Deflector – AI-Powered Email Assistant

Tech: Node.js, Express.js, JavaScript, OpenRouter API, JWT Authentication

- Built an **AI-powered customer support platform** using Node.js, Express.js, and JavaScript.
- Implemented **sentiment analysis and category detection** for automated customer email classification.
- Developed **tone-based AI draft generation** supporting multiple response styles and communication scenarios.
- Created dashboard modules for **analytics, email history tracking, and knowledge-base integration**.
- Designed a modern **SaaS-style interface** with authentication, protected routes, and workflow management.
- Structured scalable backend APIs for future **Gmail OAuth integration and RAG-based knowledge retrieval**.

HireJourney – Job Application CRM

Tech: HTML, CSS, JavaScript

- Developed a job application tracking system supporting **application status management and interview tracking**.
- Implemented **CRUD operations** using JavaScript and structured application workflows.
- Designed a clean and intuitive interface for managing job applications and status updates.
- Organized application data through structured workflows to improve tracking and follow-up efficiency.

CERTIFICATIONS

- MLOps Tools: MLflow and Hugging Face – Coursera
- Natural Language Processing with Sequence Models – Coursera
- Natural Language Processing with Attention Models – Coursera
- Natural Language Processing with Probabilistic Models – Coursera

ACHIEVEMENTS

- Qualified **AFCAT (Air Force Common Admission Test)** twice.
- Captain of **Zonal and District-Level Football Teams**, leading 20+ players in competitive tournaments.

EDUCATION

Bachelor of Engineering, Computer Science Engineering (AI & ML)
Chandigarh University, Mohali, Punjab — CGPA: 7.48/10

2020 – 2024
