SOFTWARE ENGINEERING PROFILE

Computer Science Engineer working across **frontend, backend, full-stack development, REST APIs, databases, application security, AI integration, UI/UX, debugging, and deployment**. Builds end-to-end applications using **React.js, Node.js, Express.js, MongoDB, JavaScript, and LLM APIs**, with experience in reusable architecture, secure backend services, analytics, responsive interfaces, and product engineering. Adaptable across **Software Engineering, Frontend, Backend, Full-Stack, Web, AI-enabled, API, and adjacent product engineering roles**.

EXPERIENCE

Web Development Intern – SyntecxHub

Jul 2026 – Present

- Building and refining web applications using **React and JavaScript**, focusing on responsive UI, reusable components, application state, debugging, and maintainable frontend architecture.
- Developed an **Expense Tracker, Weather Application, and Notes Application** using React hooks, component-driven workflows, API-oriented development, Git/GitHub, build debugging, and iterative testing.

PROJECTS

SmartMoney – Full-Stack Personal Finance Platform

GitHub

Tech: React.js, JavaScript, Node.js, Express.js, MongoDB, JWT, bcrypt, REST APIs, Docker, Docker Compose, Vite

- Engineered an end-to-end **personal finance platform** integrating expenses, budgets, savings goals, investments, recurring payments, analytics, and financial reporting.
- Built **Node.js/Express REST APIs** and MongoDB-backed data flows connecting responsive React interfaces with server-side business logic and persistent financial data.
- Implemented **JWT authentication, protected routes, bcrypt, Helmet, rate limiting, MongoDB sanitization, CORS, and defensive middleware** for secure application access.
- Designed a **reusable React architecture** using modular components, custom hooks, shared utilities, protected routing, responsive dashboards, financial visualizations, analytics, and **PDF/Excel reporting**; used **Docker, Git/GitHub, Postman, and Chrome DevTools** for testing and debugging.

Customer Support Deflector – AI-Powered Support Assistant

GitHub

Tech: JavaScript, Node.js, Express.js, REST APIs, OpenRouter API, LLM Integration, HTML5, CSS3

- Developed an **AI-enabled customer support application** combining Node.js/Express services with LLM-powered workflows through the **OpenRouter API**.
- Implemented **email classification, sentiment analysis, issue categorization, and AI-generated response drafts** using structured REST-based application flows.
- Applied **prompt engineering, API integration, asynchronous JavaScript, debugging, and response refinement** to turn language-model capabilities into practical product functionality.

HireJourney – Job Application CRM

GitHub

Tech: JavaScript, Node.js, Express.js, REST APIs, HTML5, CSS3

- Built a job-application management platform with **CRUD workflows** for applications, interview stages, follow-ups, deadlines, recruiter interactions, and hiring progress.
- Developed modular application logic and responsive interfaces using **REST API design, JavaScript, debugging, UI implementation, and Git-based development**.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C++, HTML5, CSS3

Frontend: React.js, React Router, Vite, Framer Motion, Responsive Design, Component Architecture, UI/UX

Backend & Data: Node.js, Express.js, REST APIs, CRUD, Middleware, MongoDB, Mongoose, Data Modeling

Security & Architecture: JWT, bcrypt, Protected Routes, Helmet, Rate Limiting, CORS, Full-Stack Architecture, REST Architecture, Reusable Hooks

AI & Tools: LLM Integration, OpenRouter API, Prompt Engineering, Sentiment Analysis, NLP, Git, GitHub, Postman, Docker, Docker Compose, NPM, VS Code, Chrome DevTools, Vercel

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Asynchronous JavaScript, Promises, Event Loop

EDUCATION

B.E. Computer Science Engineering (AI & ML) – Chandigarh University

2020 – 2024

CERTIFICATIONS

- MLOps Tools: MLflow & Hugging Face
- NLP with Attention Models
- NLP with Sequence Models
- NLP with Probabilistic Models

ACHIEVEMENTS

Cleared AFCAT (Air Force Common Admission Test) - 3 times | Captain of **Zonal and District Football Teams** - leading 20+ players
